KHUSHI RAI

kr8047@srmist.edu.in | 7888680295 | 2027
B.Tech, Computer Science and Engineering - Software Engineering
Address : SRM University's Kattankulathur ,Chengalpattu, Chennai ,Tamil Nadu.

Summary

Final-year B.Tech Computer Science and Engineering student specializing in Software Engineering at SRM Institute of Science and Technology, with hands-on experience building web applications using JavaScript, React.js, Node.js, Python, and SQL. Experienced in developing full-stack projects involving REST APIs, database integration, and AI-powered applications. Gained introductory exposure to SaaS product workflows and software testing during a four-week internship at FranConnect. Strong foundation in programming, problem-solving, and software development, with a keen interest in building reliable, user-focused applications.

Education

SRM IST-Kattankulathur 2027
B.Tech · Computer Science and Engineering - Software Engineering CGPA - 8.46/10

Swarajaya Senior Secondary School , Alwar 2023
Class XII - NWAC · Mathematics, Physics, and Chemistry · Alwar Percentage - 80.8%

Kendriya Vidyalaya No.1 Jalahalli West 2021
Class X - CBSE · Mathematics,Science,Social Science, English , Hindi · Bangalore Percentage - 86.4%

Experience

FranConnect India Software Pvt Ltd | Link Dec 2025 - Jan 2026
Software Developer Intern · Software Development Intern · Internship Noida, Uttar Pradesh, India

- Completed a four-week internship gaining exposure to FranConnect's cloud-based SaaS platform for franchise and multi-location business management.
- Explored application workflows and basic functionality to understand user interactions and expected application behavior.
- Learned fundamental manual testing practices, including identifying unexpected behavior, checking functionality, and communicating potential issues to mentors for review.
- Gained an introductory understanding of software quality assurance, product workflows, and the role of testing in maintaining reliable software applications.

Projects

Sleep360 – AI Powered Smart Sleep Monitoring System | https://github.com/khushir11/Sleep360 Jan 2026 - Apr 2026
Academic Project · Python, Flask, Pandas, NumPy, Scikit-learn, HTML, CSS, JavaScript Machine Learning / Healthcare

- Developed a machine learning-based application to analyze sleep patterns and assess potential attendance risks using sleep and attendance data.
- Used Logistic Regression for attendance risk classification and Random Forest for sleep-related scoring and analysis.
- Built a Flask backend and web interface to process data, display analytical insights, and provide personalized recommendations based on the available data.

StudyNotion – MERN Stack EdTech Platform | https://studynotion-frontend.vercel.app/ Aug 2025 - Nov 2025
Academic Project · MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs Full Stack Web Development / EdTech

- Developed a full-stack e-learning platform connecting instructors and learners through course creation, video-based learning, and progress tracking.
- Built React.js interfaces and RESTful APIs using Node.js and Express.js to support application workflows and communication between the frontend and backend.
- Integrated MongoDB for storing application data and implemented user authentication and course management functionality.

RecallIQ – Customer Re-Engagement Agent | https://khushir11.github.io/RecallIQ---Customer-Re-Engagement-Agent/ Jun 2026 - Jun 2026

Personal Project · HTML, CSS, JavaScript, Node.js, Express.js, AI APIs, Local Storage Artificial Intelligence / Machine Learning

- Developed a customer re-engagement application designed to help identify customers who may be at risk of disengagement and support personalized outreach.
- Built an interactive dashboard for customer segmentation, engagement tracking, campaign management, and analytics.
- Worked on backend integration and AI-powered recommendations to support personalized customer communication and retention workflows.

Certifications

Salesforce Certified – Agentforce Specialist | Link Dec 2025

Salesforce · 7320030

AWS Academy Graduate – Generative AI Foundations | Link Oct 2025

AWS Academy

AWS Certified Cloud Practitioner | Link Feb 2026 - Feb 2029

Amazon Web Services (AWS) · c34d5e2565b745129d179e1dde58bcde

Volunteering

Aaruush Sep 2024 - Jan 2026

Committee Head · Real world problem solving , Team Managment

Shri Shradhanand Anathalaya Jun 2025 - Jul 2025

Volunteer · Community Development

Completed 48 hours of community service providing educational support, creative learning activities, and individual guidance to children. Organized reading, mathematics, storytelling, drawing, and team-building activities while developing communication, teamwork, leadership, and organizational skills.

Competitions

Hack Summit 5.0 – Participation | Link Oct 2024

SRM Institute of Science and Technology (Team Aarush) · Tech challenge Association

Participated in Hack Summit 5.0, collaborating in a team-based innovation environment to design and develop problem-solving solutions within a limited timeframe.

Skills

Programming Languages: Python, Java, JavaScript, SQL

Languages and Frameworks: React.js, Node.js, HTML, CSS, Flask, Express.js

Tools and Technologies: MySQL, MongoDB, REST APIs, Git/GitHub

Domain Knowledge: Web Development, Machine Learning, Data Structures and Algorithms, DBMS

Languages

English [Professional Working Proficiency], Hindi [Native Proficiency]
