B.Tech, Computer Science and Engineering - Software Engineering
Address : SRM University's Kattankulathur ,Chengalpattu,
Chennai ,Tamil Nadu.

Education

SRM IST-Kattankulathur 2027
B.Tech · Computer Science and Engineering - Software Engineering CGPA - 8.33/10

Swarajaya Senior Secondary School , Alwar 2023
Class XII - NWAC · Mathematics, Physics, and Chemistry · Alwar Percentage - 80.8%

Kendriya Vidyalaya No.1 Jalahalli West 2021
Class X - CBSE · Mathematics,Science,Social Science, English , Hindi · Bangalore Percentage - 86.4%

Experience

FranConnect India Software Pvt Ltd | Link Dec 2025 - Jan 2026
Intern – Software Developer · Software Development Intern · Internship Noida, Uttar Pradesh, India

Completed a four-week internship as a Software Developer Intern at FranConnect India Software Pvt. Ltd., where I gained hands-on experience in full-stack development technologies including Java, Spring Boot, Angular, MySQL, and AWS Cloud. Assisted in developing and managing backend services, database operations, and frontend components while contributing to assigned project tasks. Demonstrated strong learning ability, punctuality, and adaptability in a professional development environment.

Projects

Sleep360 – AI Powered Smart Sleep Monitoring System | https://github.com/khushir11/Sleep360 Jan 2026 - Apr 2026
Academic Project · Python, Flask, Pandas, NumPy, Scikit-learn, HTML, CSS, JavaScript Machine Learning / Healthcare

Developed an AI-based smart sleep monitoring system to analyze sleep quality and predict sleep-related issues using machine learning algorithms. Implemented sleep tracking, personalized recommendations, health analytics, and data visualization features. Built frontend and backend modules for seamless user interaction and efficient data processing.

StudyNotion – MERN Stack EdTech Platform | https://studynotion-frontend.vercel.app/ Aug 2025 - Nov 2025
Academic Project · MongoDB, Express.js, React.js, Node.js, JavaScript, REST API, HTML, CSS Full Stack Web Development / EdTech

Developed a full-stack EdTech platform using the MERN stack to enable seamless interaction between instructors and learners. Implemented features such as course creation, secure authentication, video-based learning modules, and progress tracking. Designed RESTful APIs for efficient data handling and integrated MongoDB for scalable storage. The system enhances digital learning accessibility and provides an intuitive user experience.

Railway Management System | Link Jan 2025 - Apr 2025
· Java , SQL, Swing Desktop Application Development

Designed a desktop-based railway management system to manage train schedules, ticket bookings, passenger records, and cancellations. Implemented database integration for secure storage and fast retrieval of user data. The system improves operational efficiency by digitizing manual railway management processes.

Real-Time Chat Application | Link Aug 2024 - Nov 2024
Academic Project · Java, Socket Programming, Multithreading, Client–Server Architecture Networking / Java Application Development

Developed a real-time chat application using Java socket programming to enable one-to-one and group communication. Implemented a multithreaded server to handle multiple clients simultaneously and ensure smooth message delivery. Designed a client-server architecture supporting continuous connectivity and real-time data exchange.

Certifications

Salesforce Certified – Agentforce Specialist | Link — Dec 2025
Salesforce · 7320030

AWS Academy Graduate – Generative AI Foundations | Link — Oct 2025
AWS Academy

AWS Certified Cloud Practitioner | Link — Feb 2026 - Feb 2029
Amazon Web Services (AWS) · c34d5e2565b745129d179e1dde58bcde

Volunteering

Aaruush — Sep 2024 - Jan 2026
Committee Head · Real world problem solving , Team Managment

Competitions

Hack Summit 5.0 – Participation | Link — Oct 2024
SRM Institute of Science and Technology (Team Aarush) · Tech challenge
Association

Participated in Hack Summit 5.0, collaborating in a team-based innovation environment to design and develop problem-solving solutions within a limited timeframe.

Ossome Hacks 2.0 | Link — Mar 2025
Participation

Participated in Ossome Hacks 2.0.Applied problem-solving, coding, and analytical skills to build functional prototypes while gaining hands-on experience in teamwork

DAYZERO | Link — Apr 2025
Participation

Participated in the DayZero Hackathon, collaborating with a team to design and develop innovative solutions within a limited timeframe.

Skills

Programming Languages: Python, Java, C/C++, JavaScript
Languages and Frameworks: React.js, Node.js, HTML, CSS
Tools and Technologies: MySQL, MongoDB, AWS (Basics)

Languages

English [Professional Working Proficiency], Hindi [Native Proficiency]
